

Welcome to Comet; the new generation of amber LED lightbars from LAP Electrical.

Actual Size  
(122mm)

At only 122mm (4.7") in width, the Comet lightbar is one of the smallest lightbars on the market.

### Ingress Protection

All four lightbars in the Comet LED lightbar range meet IP67 ingress protection.

### Slimline Design

The Comet's slimline design gives the lightbar an overall width of just 122mm (4.7").

### ECE R65 Approval

A mixture of high-powered 1W and 0.5W amber LEDs gives the Comet range the R65 approval in the 'single flash' flash pattern (10 flash patterns in total).

### Length Options

Choose from 4 different lengths in the Comet range: 637mm (25"), 955mm (38"), 1273mm (50") and 1432mm (56").

### Mounting Options

Each lightbar is supplied with bracket and rubber feet mounting options.

### Light Weight, Low Profile Design

The Comet lightbar design minimises additional fuel consumption and CO<sub>2</sub> emissions from the vehicle making it ideal for applications where WLTP approval is required.

Part Number	Length (A)	Number of LEDs	Weight*	Current	
				@ 12V	@ 24V
LAP-COMET637	637mm / 25"	64	1.3KG	2.6A	1.3A
LAP-COMET955	955mm / 38"	96	1.7KG	2.8A	1.4A
LAP-COMET1273	1273mm / 50"	128	2.4KG	3.0A	1.5A
LAP-COMET1432	1432mm / 56"	144	3.2KG	3.2A	1.6A

\*Including brackets and fixings
